Interactive Displays

SMART Board **Interactive Displays** reduce both ongoing maintenance costs, and teacher time:

- UHD 4K Screens ranging in size from 65" to 86"
- Height adjustable mobile stand or wall mount

3D Printing

Encourage **collaboration, creativity, critical thinking and student involvement**. The **MakerBot 3D Printer** gets children excited about **manufacturing, engineering & creating**. It allows hands-on use of a technology with a **'wow'** factor. *Watch students solving design problems through the realisation of a 'real' end product.*

Robots & Coding

Get ready to inspire the **next generation of inventors and engineers**-with hands on learning involving **investigating, problem solving & Sequencing**. Meet **Edison**, the **LEGO compatible** robot with fun online software, or **Sphero**. Class sets available, and lessons aligned to the Australian Curriculum.

Training

SMART Board Interactive Displays and Interactive Projectors. Receive **onsite** or **online** training, helping you use your existing technology to save planning time and increase teaching time. **Interactive SMART Learning Suite Session includes: ready-made lesson activities and resources**. Take advantage of our 1, 2 and 3 year subscription for SMART Learning Suite Software.
